## DETAILED ACTION

### *Reasons for Allowance*

1. Claims 25-50 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 25-50 appear to be novel and inventive because prior art fails to show or teach the combination of packet communication network/method comprising a parallel network constituted by a plurality of physically or logically independent internal networks and at least one multiplexer that prioritizes a packet received from the voice network over a packet received from other internal networks, the at least one multiplexer being connected to each of the internal networks in the parallel and to the second external network and multiplexing packets received from a plurality of internal networks in the parallel network when outputting a multiplexed packet to the second external network.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
